MISCELLANEOUS INFORMATION

The S.D.C. highly recommended that up to date records of the students; individual file should be adhered to because they will help the S.D.C. to make appropriate decisions and recommendations as a result of a better understanding of the students' background.

RECOMMENDATION

This recommendation as is hereby exactly stated was made and forwarded by the members of the SDC to the teacher and all the teachers accepted it as such; In the minor offences that take place from day to day in the classroom, assembly and within the school campus, it is recommended that; Teachers should establish a warm and friendly relation with the students, this helps in creating a common understanding between the two parties, hence a voluntary reciprocal respect, honesty and obedience indispensable for the conductive teaching and learning environment. Teachers should love the students as they love themselves and love their own children. This love will reflect back to the teacher and hence, mutual understanding. This will also help the students to fully understand that if the teacher says 'don't' to them, it is only uttered in the name of love and concern. Otherwise a teacher with cold attitude produces cold hearted rebellious and corrupt-minded students. In the light of the above sentiments, the teachers will not need to be harsh on students because by so doing it will be clear to the students as to what is expected, and not expected, from them as reasoning intelligent beings with feelings and emotions. Teachers should fully understand that students are neither angles nor robots. They should be ready to play a parental role by motivating and reinforcing them when the need arises.

VISION

To produce students who will be able to stand for themselves and face life challenges head on.
To produce men and women who can settle for second best.

GRIEVANCE CODE OF THE S.D.C
